

Bring out the Home Energy Squad® for FREE to Jumpstart Your Energy and Cost Savings!

Whether you rent or own your home, Home Energy Squad is the perfect way to begin your journey toward lower energy bills and a more comfortable, more efficient home. For a limited quantity, City of Arvada residents are eligible for a FREE Home Energy Squad Plus visit (valued at \$600) using the promo code **ARVADA2023**.

You visit will include **direct installation of energy saving equipment** such as:

- ☑ Switching out traditional, incandescent bulbs for LEDs
- ☑ Replacing showerheads with energy-efficient models
- ☑ Weatherstripping a drafty exterior door
- ☑ Installing a smart thermostat with AC Rewards signup
- ☑ Adding aerators to your kitchen and bathroom faucets

You'll also receive a **professional energy audit** of your home which includes:

- ☑ Thorough inspection of home exterior, insulation, and mechanical systems
- ☑ Air leak analysis with a blower door diagnostic test
- ☑ Infrared imaging and analysis
- ☑ Full summary report with findings and recommendations

A standard Home Energy Squad visit is regularly \$50 and a Home Energy Squad Plus visit is regularly \$150.

Book your FREE visit today using the promo code ARVADA2023!

Already know what opportunities you're interested in? Be sure to take advantage of these rebates and programs.

Heating & Cooling Solutions

Xcel Energy offers a number of programs to help you save on your heating and cooling expenses while staying comfortable across all seasons. From equipment rebates to annual rewards and subscription services, Xcel Energy can help you save. Visit my.xcelenergy.com/s/residential/heating-cooling.

Refrigerator Recycling

Recycle your old refrigerator and freezer for a \$50 rebate! Refrigerator and freezer recycling is a safe, free way to get rid of an old, still-functional fridge or freezer. Visit xcelenergy.com/Fridge.

Renewable Energy

Interested in renewable energy but confused about what options are available? Xcel Energy offers programs to meet your unique needs.

Onsite Renewable Energy:

- Net Energy Metering allows you to get credit for excess solar production from your residential solar system and retain your renewable energy credits.
- Solar*Rewards® allows you to install solar on your private residence and receive additional bill credits for any excess energy transferred back to the grid.
- Battery Connect allows you to earn \$1,250 for enrolling your battery storage in an Xcel Energy resiliency program.

Renewable Energy Subscriptions:

- Renewable*Connect Flex® is a convenient way to power your home with wind and solar energy. Terms are month-to-month, and you decide how much energy to enroll in. The Colorado program premium is \$1.00 per 100 kWh block (\$0.01 per kWh). This cost is in addition to your current electric charges. The average home uses between 7 and 10 blocks per month.
- Solar*Rewards Community allows you to support the development of nearby solar gardens without the hassle of installing panels on your residence. Get monthly bill credits for the solar energy that your subscription contributes to the Xcel Energy grid.

Visit xcelenergy.com/renewables.

Xcel Energy Store

Order energy saving equipment like LED light bulbs, faucet aerators, power strips, and more at discounted prices at the Xcel Energy Store.
